

ANURAG VARMA THIPPANI

anuragthippani8@gmail.com · +91-9849734094 · [LinkedIn](#) · [GitHub](#) · [Portfolio](#) · Warangal, Telangana, India

Technical Skills

Languages	Python, JavaScript, SQL
AI / ML	LLMs, Multimodal AI, RLHF, SFT, RAG, Agentic AI, Multi-Agent Systems, PyTorch, TensorFlow, Scikit-learn
Frameworks	FastAPI, Flask, LangChain, React.js, Node.js, Gradio
Data & Infra	MongoDB, MySQL, Vector Databases, Docker, AWS, Azure AI, Git, Linux
Core	System Design, REST APIs, DSA, OOP

Experience

LLM Post-Training Intern — [Ethara AI](#) Apr 2026 – Present

- Contributed to post-training and evaluation of multimodal AI systems across text, image, and audio modalities.
- Performed RLHF-style preference ranking, response quality assessment, and model alignment workflows for LLMs and multi-modal models.
- Worked on speech/audio evaluation, transcription validation, caption quality assessment, and multimodal content understanding tasks.
- Conducted benchmarking and error analysis to improve model quality, consistency, and production readiness.

AI Engineer — [Google Agentathon](#) — [GDG Hyderabad](#) × [Malla Reddy University](#) Dec 2025

- Designed multi-agent AI workflows with agent orchestration, tool calling, and advanced prompt engineering.
- Built LLM-based systems demonstrating autonomous reasoning and real-time decision-making capabilities.

Research Intern — [LogicWhile \(Remote\)](#) Dec 2024 – May 2025

- Built production-ready frontend modules and integrated APIs in an agile development environment using React.js and Node.js.

Projects

DocFlow RAG — AI-Powered Document Intelligence Platform — [Python](#) · [FastAPI](#) · [React](#) · [LangChain](#) · [Vector DB](#) · [LLMs](#) May 2026

- Developed production-grade RAG pipeline enabling conversational Q&A and semantic retrieval across large-scale unstructured documents.
- Implemented document processing, embeddings, vector indexing, and context-aware retrieval for source-grounded AI responses with citation support.

Tech: [Python](#), [FastAPI](#), [React.js](#), [LangChain](#), [LLMs](#), [Vector Database](#), [Docker](#), [REST APIs](#) [GitHub](#)

ChainOps AI — Agentic AI Supply Chain Risk System — [Python](#) · [Flask](#) · [React](#) · [MongoDB](#) · [Scikit-learn](#) Mar 2026

- Built multi-agent ML system with real-time API integration to predict global supply chain disruptions proactively.
- Engineered anomaly detection pipeline achieving **92%+ precision**; deployed full-stack app (React + Flask + MongoDB) with live demo.

Tech: [Python](#), [Flask](#), [React.js](#), [MongoDB](#), [Scikit-learn](#), [Cloud APIs](#) [GitHub](#) | [Live Demo](#)

Return Abuse Detection System — [Python](#) · [Scikit-learn](#) · [Flask](#) · [Gradio](#) · [Pandas](#) May 2025

- Fraud detection ML model achieving **89% F1-score**; applied SMOTE + feature engineering boosting minority class recall by **23 percentage points**.
- Shipped interactive Gradio UI for real-time inference, reducing analyst manual review time significantly.

Tech: [Python](#), [Scikit-learn](#), [Flask](#), [Gradio](#), [Pandas](#), [Matplotlib](#) [GitHub](#)

Patent

System for Lung Nodule Detection using AI and Deep Learning App No.: 202541013900 · Filed: 18 Feb 2025 ·

Published: 28 Feb 2025

CNN-based deep learning pipeline for early-stage lung nodule detection, exceeding baseline diagnostic accuracy.

Achievements & Leadership

HackWithInfy 2025 — Top 100 National Finalist — [Infosys](#) 2025

- Ranked **Top 100 nationwide** out of thousands of participants in Infosys' flagship national coding competition.

Semester Topper — School of CS & AI — [SR University](#) 2025–26

- Ranked **#1 in the School of CS & AI**; received Certificate of Appreciation from HoD for outstanding academic performance.

Team Leader — [SR University Hackathon](#) — [SR University](#) Sep 2024

- Led 4-member team to **Top 10 finish out of 50+ teams**, owning full project lifecycle from ideation to demo.

Education

SR University, Warangal Expected May 2026

B.Tech, Computer Science Engineering (AI Specialization)

GPA: **8.2/10.0**

Semester Topper — School of CS & AI, 2025–26

Certifications

AWS — Cloud Foundations, Web App Builder, Data Pipeline Builder Nov 2024

Microsoft — Azure AI Fundamentals (AZ-900) 2024

Cisco — CCNA (Routing & Switching), Data Analytics, Endpoint Security 2024
